WORK EXPERIENCE

Web Development Intern

JSUN Engineering, 6-Week Industrial Training

May 2023 - July 2023

- completed hands-on training in modern web development methods and technologies under the project manager's supervision.
- acquired hands-on experience with JavaScript, HTML, CSS, and responsive web design concepts.
- demonstrated great adaptability and a dedication to producing high-quality deliverables by contributing to real-time project modules.

PROJECTS

TEENHUB – Teen-Centric Web Platform | [Teenhub](#)

HTML, CSS, Bootstrap, JavaScript, PHP

- Designed and developed a responsive, user-focused web platform to support teenagers through social, emotional, and academic challenges.
- Utilized JavaScript for dynamic UI interactions, form validation, and enhancing overall user experience.
- Engineered full-stack functionality with a PHP backend, following a structured development lifecycle from ideation to deployment.

The Digital Cookbook – Smart Recipe Finder App | [Cookbook](#)

Python, HTML, CSS, Pandas, NumPy

- Developed a user-friendly application that helps users discover, filter, and save recipes based on dietary preferences and meal types.
- Implemented a smart ingredient-matching feature allowing users to find recipes using available ingredients, promoting food efficiency and minimal waste.
- Built using Python for backend logic with Pandas and NumPy for data handling, and HTML/CSS for a clean, intuitive interface.
